Subject: Fwd: Follow Up Meeting?

Deputy,

Here is the summary and action items from the call below. At this point TC was only wanting information on other non-enforcement tools.

I committed to get as much information as possible. They did suggest a DM call but not until next week.

Subject: Re: Follow Up Meeting?

Hi All,

Just finished with TC, essentially they are just trying to better understand what tools might exist in various jurisdictions that can potentially help the situation. This is not intended to interfere with law enforcement actions in any way, it is an information gathering exercise at this time.

They are looking for the following. Casey, can I ask that your team coordinate a response to this working with TSD, OD and others as needed. Some of this I think our ministry experts will have readily available.

1: can we provide the impacts of any charges that could be laid to truck drivers/operators: for example, types of charges that lead to CVOR points, what are potential impacts of that (insurance, sanctions, contracts).. are there other potential non CVOR impacts.

2. some jurisdictions have Legislation in place that protects critical infrastructure/services from occupation/disruption with significant fines, etc. does Ontario have anything? Not that I am aware of.

3. tow operators, are there any incentives we might recommend to get them to help if needed, or penalties if they don't. This is a tough one as I'm not sure we have any direct contracts with them inside municipalities, perhaps OPP/police do. Do we know if any municipalities or other BPS have their own heavy tow capacity? TC thought OC transpo may.

They are hoping for any info we can provide asap. They may convene a DM call on Monday (I think unlikely) or Tuesday.

My suggestion is we pull what we can easily do on Monday and send EOD, and follow up with other info. Best efforts here, If something isn't available I think we can say that.

Copying Carolyn and Raj given the potential for a DM call.

Casey, let me know if you want to discuss. Thanks in advance everyone.

Subject: FW: Follow Up Meeting?

Hi Shelley & Eric,

Heads up below. There was an FPT call earlier today (see a summary attached) where the current trucking issue was discussed. They are now looking for a small regroup tomorrow that I will participate in.

May need your help after, although I am pretty skeptical of the suggestion we are to engage the towing community directly to help here. Either way, will report back.

Colleagues,

Many thanks for your time on our call today. And apologies for a late evening email. We are hoping to have a follow up discussion with a smaller group around additional steps that might be taken (e.g. to incent tow truck operators to support law enforcement). To that end, we will convene a call tomorrow (Saturday the 5th). . .which warrants a second apology!

Would Saturday around 11:30 CST work for you? I will try to book a Teams call that works for most.

I would note that our DM may convene a similar call early next week.

Many thanks for your support and collaboration.

Aaron
